

CLAIMS

1. An additive for hydrocarbon fuels, comprising:
active components including:
a hydrocarbon mixture in the range of approximately 60% to 76% by volume;
hydrotreated distillates in the range of approximately 10% to 16% by volume;
at least one predetermined vapor phase inhibitor; and
at least one predetermined surfactant.
2. The additive of claim 1, wherein:
said active components also include petroleum amines.
3. The additive of claim 1, wherein:
said active components also include at least one aromatic hydrocarbon.
4. The additive of claim 2, wherein:
said active components also include at least one aromatic hydrocarbon.
5. The additive of claim 1, wherein:
said active components include a blend of vapor phase inhibitors.

6. The additive of claim 2, wherein:
said active components include a blend of vapor phase inhibitors

7. The additive of claim 3, wherein:
said active components include a blend of vapor phase inhibitors.

8. The additive of claim 4, wherein:
said active components include a blend of vapor phase inhibitors.

9. The additive of claim 1, wherein:
said active components include anionic and ionic surfactants.

10. The additive of claim 2, wherein:
said active components include anionic and ionic surfactants.

11. The additive of claim 3, wherein:
said active components include anionic and ionic surfactants.

12. The additive of claim 4, wherein:
said active components include anionic and ionic surfactants.

13. The additive of claim 5, wherein:
said active components include anionic and ionic surfactants.

14. The additive of claim 6, wherein:
said active components include anionic and ionic surfactants.

15. The additive of claim 7, wherein:
said active components include anionic and ionic surfactants.

16. The additive of claim 8, wherein:
said active components include anionic and ionic surfactants.

17. The additive of claim 2, wherein:
said petroleum amines are included in the range of approximately 5% to 8% by volume.

18. The additive of claim 4, wherein:
said petroleum amines are included in the range of approximately 5% to 8% by volume.

19. The additive of claim 6, wherein:
said petroleum amines are included in the range of approximately 5% to 8% by volume.

20. The additive of claim 8, wherein:
said petroleum amines are included in the range of approximately 5% to 8% by volume.
